Mother's Day Celebration

A. Reading

Su is a single mother with two young children. Her son is seven years old, and her daughter is six. They live in a two-bedroom apartment in San Francisco, California. Su is a cashier at a Korean restaurant. Unfortunately, the restaurant is open on Mother's Day, and Su has to work the morning shift from 6:30 to 2:30. Su's children are going to stay with her sister while she is at work. Su's sister is going to help the children buy a pretty card and a flower for their mom. They are also going to make a special Mother's Day dinner with beef, rice, and salad. After dinner, the children are going to clear the table and wash the dishes. Su and her family don't have much money, but they have found an affordable way to celebrate Mother's Day.

B. True or False

1. _____ After dinner, Su is going to wash the dishes.
2. _____ Su and her children live in an apartment in San Francisco, California.
3. _____ The restaurant Su works at closes at noon on Mother's Day.
